Recreational Experience

The following centennial proposal is certified as eligible for Centennial Challenge funding consideration in fiscal year 2008. Funding for the Centennial Challenge requires legislation.

Congaree River: Education and Research boat

Location: [Congaree National Park, Hopkins, South Carolina](#)
Partner(s): [Friends of Congaree Swamp](#)
Partner Website:
Total Cost: [\\$22,000](#)
Proposal # [PMIS# 137506](#)

Summary: This project will provide a dedicated boat to be used to provide interpretive tours on the Congaree River at the park's southern boundary. At present, there is no means to provide such tours, and most visitors are unable to see the Congaree River from inside the park, due to the remote nature of the river from existing park infrastructure. The addition of an interpretive and research boat will also allow researchers and park volunteers to get to areas of the park that currently take several trips in our smaller boat.
